

REQUEST FOR FORCED ASSESSMENT RELIEF

Background - what is a forced assessment? Business tangible personal property must be listed annually by the taxpayer on a schedule due by March 1 each year in the county assessor's office. The cost of the property to the taxpayer (as recorded prior to depreciation) must be reported by depreciable group and year of acquisition, and the assessor will then apply a statutory 'percent good' factor to arrive at standard depreciated value. Thirty percent of this value is considered the assessed value of the property, to which the tax rate is applied. If the schedule is not timely filed, the assessor must force assess the property using the best information available.

What can I do about it? The county board of equalization can adjust a forced assessment if the taxpayer presents a completed schedule and requests relief before the board adjourns in June. Taxpayers who miss this opportunity can request relief directly from the assessor if the forced assessment exceeds a threshold amount 25% higher than would result from standard depreciated value indicated in the completed schedule. The request must be made by March 1 of the second year following the year for which the forced assessment is made, or before suit to collect the tax is filed in court.

To obtain this relief, 1) complete a standard schedule using cost as of January 1 for the year of the forced assessment; 2) be prepared to substantiate this information from your financial records, records of purchase, or income tax returns; 3) attach the completed schedule to this form. Relief must be requested by March 1 of the second year following the year of the forced assessment, or before suit is filed to collect the tax.

STATE OF TENNESSEE) Personal Property
